

Let's use eBooks!

Wiley reference works and EBSCOhost eBook Collection

What is an eBook?

An eBook, also known as an electronic book, is a new style of book that is viewed on the web. Broadly speaking, eBooks can be divided into two types: those that are **examined** and those that are **read**.

Wiley reference works are available for **examining/research**. For **reading**, we have access to the **EBSCOhost eBook Collection**, **Maruzen eBook library**, **SpringerNature**, **Elsevier**, **Wiley**, **ProQuest eBook central**, the **InfoBase site**, offers you access to eBooks that have purchased. You can **read the contents** on the web as you would read a regular book. Please visit the library homepage at <https://lib.tut.ac.jp/>. With a few exceptions, you can also search for available eBooks through **OPAC** and **TUT Link (SFX)**.

Convenient points of eBooks

Compared to printed books, there is no need to be "on loan" and unavailable for a long period of time.

Copying, pasting, and printing are easy. (Please include citation information)

It is also possible to cross-search information in multiple e-books.

You can use it even from off-campus by creating a personal account or using the **GakuNin service** or **VPN service**.

(Using from off-campus For details, see https://lib.tut.ac.jp/ejournal/out_campus_e.html)

1. Type to examine ... Wiley reference works

The following seven Wiley reference works titles are available on the Wiley Online Library site.

- [Kirk-Othmer Encyclopedia of Chemical Technology](#)
- [eMagRes](#)
- [Organic Reactions](#)
- [Patai's Chemistry of Functional Groups](#)
- [Handbook of Combustion](#)
- [Handbook of Social Psychology](#)
- [Characterization of Materials](#)

E.g.) Kirk-Othmer Encyclopedia of Chemical Technology

The screenshot shows the Wiley Online Library search results page. The search term is 'Controlled Release Technology, Agricultural'. The results list includes 'Controlled Release Technology, Agricultural' by Harvey M. Goertz, published in December 2000. A red box highlights the 'Full Access' icon next to the title. A red circle highlights the 'Full Text' link under the title. A red arrow points from the 'Full Access' icon to the 'Full Text' link.

1 Full Access or Free Access

Items with a mark can be used up to the main text.

Click on Full Text or PDF to open the full text.

The screenshot shows the full text of the article 'Controlled release formulations (CRF) aim to make available pesticides at rates...'. The text is displayed in a clean, readable format with a sidebar containing navigation links like 'Abstract', 'Full Text', 'PDF', 'References', and 'Request permissions'. A red box highlights the 'Full Text' link in the sidebar. A red arrow points from the 'Full Text' link in the sidebar to the 'Full Text' link in the main content area.

The service can be used from off-campus with the use of **the Academic Accreditation Services**

Simultaneous access limit: unlimited

2. Reading Type ... EBSCOhost eBook collection

Connect with: <https://search.ebscohost.com/>

In EBSCOhost eBook collection purchased titles (Japanese/English) and many free access titles (English) are available.

1 Enter a search term in the search window to search from the full text of available eBooks and display a list of books.

2 The Newest column shows a list of eBooks you have purchased. Clicking on a cover will take you to a detailed view of the eBook.

3 Clicking on "Full PDF" will also display the full text.

4 Click on the "+" in the Table of Contents to list the table of contents in order. Clicking on it will display the full text of the corresponding chapter.

5 Useful tool buttons

Create an account
 • Once you create an account and sign in, You can use the **off-campus access**, sticky note and memo functions. You can also create a new account from sign in.

[Username] Please enter the same name as the account issued by the Information Media Center.
[Password] (half-width alphanumeric characters) 6 or more characters
[Email address] University-issued email address
[First Name/Last Name] Enter your first and last name

Creating notes You can leave notes on the eBook you are viewing. However, only when **signed in**

Citation Shows how to use citations
 ※ E-books are also copyrighted works. When quoting in reports, etc., please clearly indicate the source of the information.

Notes on using EBSCOhost eBook Collection

- **One simultaneous access per book.** If there is no activity for 15 minutes, it will automatically become available for viewing by others.
- **Please check each title for a printout of an eBook.**
 Please note that systematic or mechanical mass printing may result in the suspension of university-wide access.
- Reservation/download (rental) functions are not available. **EBSCO can be accessed from off-campus using the GakuNin service.**

Please follow the terms of use!
