

Let's use eBooks!

Wiley reference works and EBSCOhost eBook Collection

What is an eBook?

An eBook, also known as an electronic book, is a new style of book that is viewed on the web. Broadly speaking, eBooks can be divided into two types: those that are **examined** and those that are **read**.

Wiley reference works are available for **examining/research**. For **reading**, we have access to the **EBSCOhost eBook Collection, Maruzen eBook library, SpringerNature, Elsevier, Wiley, ProQuest eBook central, the InfoBase site**, offers you access to eBooks that have purchased. You can **read the contents** on the web as you would read a regular book. Please visit the library homepage at <https://lib.tut.ac.jp/>. With a few exceptions, you can also search for available eBooks through **OPAC** and **TUT Link (SFX)**.

Convenient points of eBooks

Compared to printed books, there is no need to be "on loan" and unavailable for a long period of time.

Copying, pasting, and printing are easy. (Please include citation information)

It is also possible to cross-search information in multiple e-books.

You can use it even from off-campus by creating a personal account or using the **GakuNin service** or **VPN service**.

(Using from off-campus For details, see https://lib.tut.ac.jp/ejournal/out_campus_e.html)

1. Type to examine ... Wiley reference works

The following seven Wiley reference works titles are available on the Wiley Online Library site.

- [Kirk-Othmer Encyclopedia of Chemical Technology](#)

Notes on using EBSCOhost eBook Collection

- **One simultaneous access per book.** If there is no activity for 15 minutes, it will automatically become available for viewing by others.
- **Please check each title for a printout of an eBook.**
 Please note that systematic or mechanical mass printing may result in the suspension of university-wide access.
- Reservation/download (rental) functions are not available. **EBSCO can be accessed from off-campus using the GakuNin service.**
